Adrian Hero T. Adona

Frontend Engineer | WordPress Developer | Web Developer

adrianheroadona@gmail.com | linkedin.com/in/ahadona | adrianadona.lol | Manila, Philippines

PROFILE

Frontend engineer with 3+ years building and shipping production WordPress sites and custom CMS platforms for Japanese and Philippine clients. Comfortable owning projects end-to-end—from theme architecture and GSAP-driven interactions to cross-device QA and Vercel deployments, actively utilizing AI tools to optimize code generation and development workflows. Strong communicator with experience coordinating directly with Japanese project managers and design teams.

EXPERIENCE

Frontend Engineer

Upward Next Inc. | Makati City | March 2022 - November 2025

- Engineered custom WordPress themes and plugins for 10+ live client sites, reducing average page load time by optimizing asset delivery and lazy loading.
- Led frontend architecture decisions on CMS platforms including myhome-co.com, aidecplus.com, and ptruck.co.jp coordinating with Japanese managers and UI designers.
- Built responsive, cross-browser layouts from Figma/XD designs using HTML, CSS/SCSS, JavaScript, and TypeScript.
- Conducted device and browser QA across iOS, Android, Chrome, Safari, and Firefox before every client deployment.
- Managed Git version control and collaborated on feature branches with backend and design teams.

Player Support Specialist

Keywords Studios | Pasig City | February 2020 - December 2021

- Diagnosed and resolved complex player-side technical issues, maintaining high satisfaction scores under volume pressure.
- Tracked, documented, and escalated bugs and feature requests in JIRA, collaborating with development teams to ship fixes.
- Translated player feedback into structured UX improvement reports shared with product teams.

SKILLS

Web Development	HTML, CSS, Sass/SCSS, Bootstrap, JavaScript, TypeScript, PHP
Frameworks & Libraries	React, GSAP, jQuery
CMS & Tools	WordPress, Wix, Figma, Adobe XD, Photoshop, Illustrator, Pug (Jade)
DevOps & AI Tools	Git, Vercel, Cross-Device Testing, Performance Optimization, AI-Assisted Development, Prompt Engineering

EDUCATION

- **Bachelor of Science in Information Technology**, University of the East - Manila - Graduated December 2019
